Summary

Entry-level Python developer with a strong grasp of programming fundamentals, OOP, and web frameworks like Flask and Django. Skilled in writing clean code, working with databases, and building small-scale projects. Eager to learn and grow in a collaborative development environment..

Technical Skills

- Languages: Python, SQL, HTML, CSS, JavaScript (basic)
- Frameworks: Flask, Django (basic)
- Libraries: Pandas, NumPy, Matplotlib, Requests
- Tools: Git, GitHub, VS Code, Jupyter Notebook
- Databases: SQLite, MySQL
- Operating Systems: Windows, Linux

Education

institute of technology and science, BCA in Computer Application	Sept 2022 – May 2025
Kendriya Vidyalaya Sangathan, Higher Secondary	Apr 2021 – Mar 2022

Experience

Fresher ,

Projects

Movie Recommended System — github.com/name/repo

- A Python-based recommendation system that suggests movies to users based on their preferences or similarity to other movies. The system uses content-based filtering and handles movie data to provide accurate and relevant recommendations.

  Features:
- Suggests movies based on selected movie or genre
- Filters movies using similarity scores (cosine similarity)
- Loads and processes movie data from CSV file
- Simple command-line or GUI interface (if applicable)

  Technologies Used:
- Python, Pandas, NumPy, Scikit-learn, Cosine Similarity, Jupyter Notebook, CSV

Soft Skills:

fProblem-Solving, Team Collaboration, Communication, Adaptability, Time Management, Attention to Detail, Willingness to Learn
